Drill Management

Give everyone immediate, digital access to emergency plans and practice your protocols via safety drills.

Bully/Threat Reporting

Empower everyone to report violent behaviors or bullying issues with an anonymous option and enable messaging for additional information collection.

Digital Safety Plan

Provide role-based checklists, digital maps & docs and emergency contacts online/offline.

● Building Your Safety Road Map

Safety is more than just sending alerts, and by focusing on physical, mental, and cyber safety, risks can be reduced. With the most powerful response platform in the industry, we can provide you with the road map to build your school safety culture.

● Instant, Constant Communication Within Your School

Whether during a drill, real emergencies, or daily communication, our messaging feature within Safety iResponse enables staff, teachers, and students to communicate quickly.

● Crisis Mitigation, Before it Happens

Responding to a crisis is just one piece of emergency management. Address issues through comprehensive, digital assessments to prevent a potential crisis with Safety Intervention Manager.

As safety professionals, we committed to bringing you innovative solutions to help you identify and manage behavioral and mental health concerns. We accomplish this goal with our comprehensive and user-friendly platform, Safety Intervention Manager. This system includes integrated, early and anonymous real-time two-way reporting through various communication methods, behavioral intervention management, and threat and concerning behavior identification and management, with the unique ability to intervene at the appropriate level for each case. We give you the best opportunity to identify and prevent violence on your campus by creating a positive and supportive educational environment.

● Peace of Mind After the Storm

Implement a layered security approach that tracks students throughout the entire process to ensure the safe reunification of students with their parents or guardians, while effectively communicating and coordinating with parents and staff.

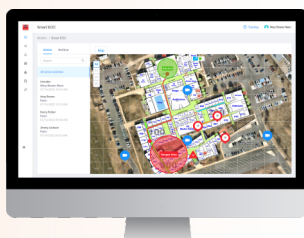

Fully aligned with the proven practices of The "I Love U Guys" Foundation's Standard Reunification Method, CrisisGo Safety

Reunification Manager delivers undisputed reliability with the most streamlined and innovative safety system that connects students, schools, parents, and first responders to ensure efficiency and collaboration in the reunification process. You can trust our Safety Reunification Manager to easily guide you through any unpredictable emergency.

● Safety iPass

An intelligent survey and digital badge verification system helps schools handle health pre-certification and entry management in the midst of any health crisis.
